SECURE WRISTBANDS

Keep your event secure with our award winning, Australian Made Wristbands – Your Ultimate Solution for security, promo and safety of events.

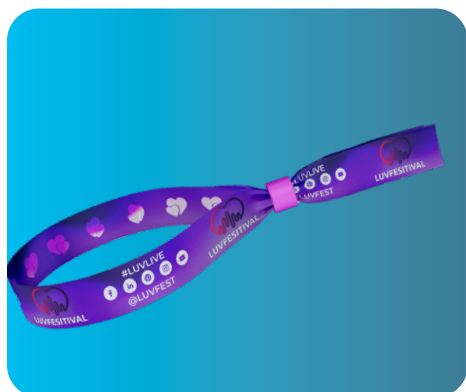

■ Tyvek

The Classic & Timeless Event Band...

Made from high-density polyethylene fibers, Tyvek is stronger than paper, yet more cost-effective than fabrics. This makes them the go-to default for most events.

With their strong, non-transferable, tamper-evident adhesive it's no wonder why they're so popular! AAC Tyvek wristbands are made in Australia with stunning digital print quality!

■ Fabric

Eco-Friendly Options & Premium Look...

Our range of fabric bands all share the same sleek silhouette, but we have a range of options: Eco-friendly r-PET, Smooth Polyester, Bamboo and Woven.

These are most sleek and stylish versions of our secure bands and all feature secure, one-way slider locks. AAC fabric wristbands are decorated through heat sublimated designs that last for weeks. Their premium look lasts longer than any other..

■ Polyband

Classic Silhouette, New Gloss Finish...

Crafted from 100% recyclable, Category 2 HDPE, these wristbands are durable with a smooth, silky sheen. Their tamper-proof, tear-proof, and water-proof features ensure top-notch security.

With premium digital prints and glossy finish they look more unique than that of the industry standard Tyvek. Truly a great cost-effective solution for your event needs.

■ Straight Vinyl

Snappy, Safe, Secure

AAC's vinyl wristbands offer unparalleled security and durability. Their triple-layer backing ensures water resistance and sturdiness, while the single-use snap lock and provides top-notch security, making them non-transferable.

The high-gloss sheen and vibrant colors not only make a fashion statement but also ensure long-term visibility, setting them apart from other wristbands. Available in edge glow varieties for extra shine and retro-throwbacks.

■ Ultra HD

Lifelike Print Quality...

Our exclusive Ultra HD wristbands are crafted with cutting-edge digital technology, they offer unmatched visual clarity and color, setting a new standard in event access control.

Their robust PVC construction ensures durability, while the premium 25mm size enhances visibility and prevents counterfeiting. Your event's prestige is represented through the life-like print quality.

Safeguard unauthorized entry with these world-first, superior-quality wristbands.

■ Holographic

Security Made Fun

Stand out with AAC's plastic holographic wristbands, featuring a 3D metallic-like finish, available in 11 unique colours.

Designed for comfort, they feature a secure, single-use snap lock, which is suitable for wet and dry environments. They are strong enough to last for weeks; long after multi-day events conclude.

■ Rainbow Box

1000 Wristbands, One Low Price

The AAC Rainbow Box offers a collection of 1,000 Tyvek wristbands in 10 vibrant colors, each designed for maximum security and durability.

This is the cheapest way to get AAC's signature 'Tyvek toughness,' guarantee. They're tamper-proof, tear-proof, and water-proof for maximum security and durability.

Wristbands Are Investments

How Can Quality Wristbands Help You Save Money?

By preventing wristband tampering, we can recover lost revenue and avoid potential legal issues.

Wristband tampering is when someone tries to enter or re-enter your event or venue without a valid wristband, or by using someone else's wristband.

Let's Use An Example:

Expecting an attendance of approximately 5000 people. They charge \$65/person for entry; of the 5000 in attendance, 25 people were to gain entry through wristband tampering. Despite the 25 people accounting for only 0.005% of all attendees, the event/venue has lost a total of \$1625.00. Take a look at what you pay for your wristbands and compare this to the amount lost through wristband tampering.

PROMOTIONAL WRISTBANDS

Not all events need high security 'bands. AAC wristbands promote and brand your event, as an accessory to all the fun.

■ Silicone

Nostalgia Fueled Throwback

Want a long-lasting, reusable and stylish way to promote your event and brand? Nothing says it better than silicone.

We offer Plain Silicone bands in two sizes: 180mm and 202mm. Best of all you can easily customise them with high quality prints or embossed designs.

■ Elastic

Snug, Stretchy Fit

Elastic Wristbands look and feel great on the wrist, no matter who's wearing them. Their stretch fabric make them ideal for getting wet and helps them fit patrons; big or small. A soft, stretchy and seamless construction means they're among the most comfortable wristbands out there.

■ Woven W/Bead

Unique and Distinctive Woven Fabric...

Our woven bands are probably our most distinctive design, Their interlacing weave pattern gives your brand a trendy look. Their eye-catching design makes them near impossible to replicate. When paired with a detachable bead, they can be slipped on and off when you see fit.

They can also be secured by AAC's range of slide locks for secure events.

ID PRODUCTS

■ Plastic ID Cards

Sleek & Smart For VIPs

Our synthetic plastic allows for the highest quality prints and fancy print features like spot-gloss or holographic cards. Paired with a custom lanyard, our plastic ID cards guarantee guests feel VIP!

Coffee Mugs & Tumblers

Your morning pick-me-up stays hotter in your new custom mugs, tumblers and keep cups.

Custom Keychains

Never lose your keys again by creating a custom keychain unique to you and your brand.

Leaders In Industry

We've invested millions into print tech, warehousing and local Australian manufacturing to have the biggest top to bottom range - as a one-stop shop to the event industry.

Let's Explore Our Tech:

Starting with **Aqueous Inks**, they're water-based, perfect for indoor posters and such.

But if you're going outdoors, you'll want our **Pigment-based Printers** that laugh in the face of sunlight.

Dry Toner is your everyday laser printing hero, ideal for those short-run jobs. It's everywhere, which means getting your stuff printed is a breeze, not to mention wallet-friendly.

Want to jazz up your print? Our **Embellishments** are like the cherry on top. They add that special touch with techniques like embossing, debossing, foiling, and more, making your print stand out in a crowd.

Flexographic printing is like the yoga of printing—super flexible. We use these cool, bendy photopolymer plates that wrap around cylinders to press ink onto your material, with each color getting its own plate.

HP Indigo is a bit of a warm wizard. It uses heat to melt ink into a flawless film before transferring it to your chosen material, giving you crisp, clear images.

Screen printing uses a mesh to push ink onto your material, except where a stencil blocks it. It's a tried-and-true method for a reason.

Solvent/Eco-Solvent printing is like the hipster of printing, using organic solvent-based inks that are kinder to your nose and the planet. Their good for you and better for everyone.

And lastly, **UV Inkjet** is the cool tech that lets you print on almost anything, thanks to its special inks that dry with UV light, expanding your creative horizons.

Our tech, skilled team and efficient processes set us up to help you - as you see best! That's what makes us the world's most efficient event assistant.

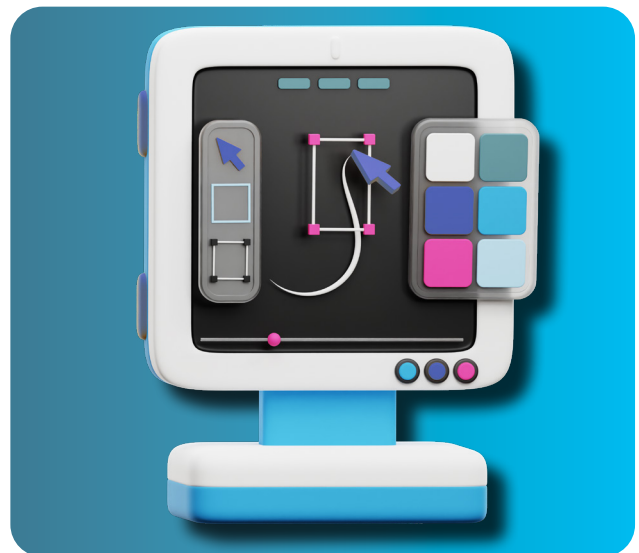

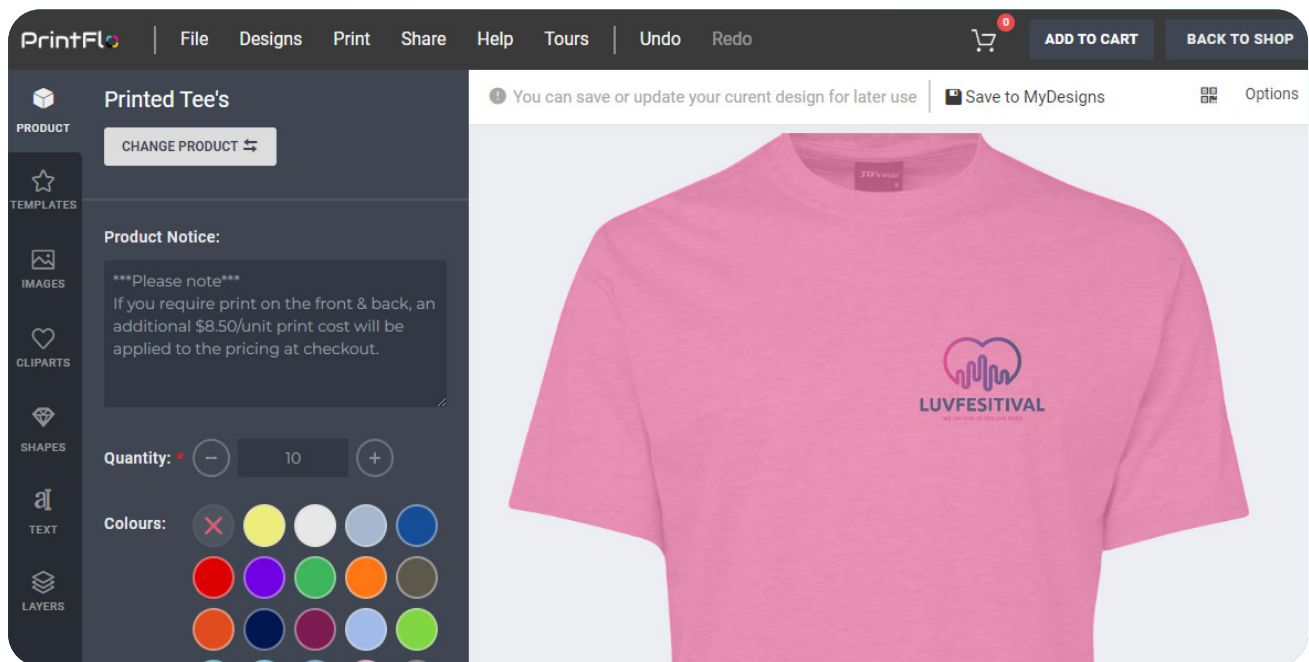

Design It, Your Way

With Our Product Design Tool

PrintFlo

We provide you with our tool, **PrintFlo** to create whatever branding resources you so choose. Even if your stick figures are more 'stick' than 'figure' with **PrintFlo**, you can create stunning graphics on the canvas of any marketing material. ID's, signage, flyers, stickers, banners and even promotional products...

Whatever it is, we can help you brand it with... **PrintFlo**

Who is AAC?

You get it - we have great products, but who are we? What's our story?

In Short: We're The Event Experts

But, how did we end up here? AAC's journey began with a vision to innovate. Our founder, Robert Borg, started his career as a Rides Maintenance Technician at Seaworld in 1983.

Our History

In 1995, he expanded and created Australian Amusements Consulting Pty Ltd, later shortened to just AAC, and focused on consulting insurers, lawyers and amusement operators in various aspects of the amusement and leisure industry.

Robert identified a gap in the market in the early 90s. The offerings for ID solutions in Australia were sparse. AAC Wristbands Australia was born, revolutionising event identification with speed and local production. We had humble beginnings, ran by Kim, Roberts wife, out of their garage in the early to mid-90s. Later, the Gold Coast facilities, acquired in 2000 and expanded in 2006, marked our ascent as pioneers, introducing Australia's first locally manufactured Tyvek Wristbands.

Today, we stand as AAC, your trusted event experts, operating from the Gold Coast with a mission to enhance every aspect of your event.

As event planners, you understand the importance of detail, reliability, and flair. At AAC, we share your passion. Let's join forces to transform ordinary events into extraordinary spectacles that resonate with every attendee.

Because at AAC, we don't just supply products; we're part of your story, crafting unforgettable moments that begin with a wristband and end in lasting memories.
